---

Dear Students,

Welcome to Geometry! Attached you will find a summer packet for math reinforcement for the upcoming 2018-2019 school year. This packet should be completed and returned to school on the *first full day of school*. September is filled with review, but with completion of this packet, the review will come very naturally. The packet will be *collected* and *graded* as a **20-point homework grade** based on *completion* and *effort*.

To assist in your review and completion of this packet there are videos corresponding to each section of this packet. The videos are linked into this packet using QR codes that look like this:  In order to view the videos, simply download a QR scanner to your phone, use the scanner to scan the code, and that will directly link you to each video.

If you find yourself still confused on certain topics, it is suggested that you search for the topic on one of the following websites:

- ShowMe - <http://www.showme.com>
- Khan Academy - <http://www.khanacademy.org/Math>
- Math TV - <http://www.mathtv.com>

We look forward to teaching you and getting to know you next year.

Have a great summer!

*Robbinsville High School Mathematics Department*

Name \_\_\_\_\_

Due Date: The first day back in your Geometry Class!

Directions: You must also show all work in the space provided to receive credit.

**Part 1: Algebra 1 Skills****Solve for the variable:**

1.  $2x - 3 = 15$

4.  $-3(x+5) = 8x + 18$

2.  $\frac{2}{3}x = 18$

5.  $4(8 - p) - (7 - p) = 22$

3.  $2(x+3) = 12$

6.  $5(x - 4) - 1 = -7x + 3$

**Solve by Cross Multiplication:**

7.  $\frac{x-1}{3} = \frac{25}{30}$

8.  $\frac{x+1}{-3} = \frac{x-4}{5}$

9.  $\frac{5}{x-1} = \frac{7}{x}$

**Solve by Factoring:**

10.  $x^2 - 16x + 64 = 0$

11.  $2x^2 = 9x + 5$

12.  $8x - 7 = x^2$

**Solve by Factoring Two Perfect Squares:**

13.  $25y^2 - 49 = 0$

14.  $16x^4 - 121x^2 = 0$

**Solve by Using the Greatest Common Factor:**

15.  $2x^4 - 12x^2 = 0$

16.  $3xy - 15y = 0$

**Solve by Using the Quadratic Formula: (Round to the nearest tenth)**

17.  $3x^2 - 10x + 5 = 0$

18.  $2x^2 - 3x - 11 = 0$

**Solve by Using the Quadratic Formula: (Round to the nearest hundredth)**

19.  $-x^2 - 2x + 2 = 0$

20.  $-4x^2 + 6x - 1 = 0$

**Simplify:**

21.  $(2x^2 + 11xy - 10) + (3x^2 - 4x + 2) + (-x^2 - y - 4)$

22.  $(2x^2 + 5x - x^3 + 1) - (9x^2 - 8x - x^3 + 7)$

**Foil:**

23.  $(3h + 7)(2h - 1)$

24.  $(4a + 5c)(4a - 5c)$

25.  $(w - 2)^2$

Solve each system:

(Substitution method)

(Elimination Method)

26.  $y = -x + 3$   
 $y = x - 3$

27.  $2x - y = 5$   
 $4x - 2y = 10$

28.  $x + y = 0$   
 $x + y = 2$

Graph the Functions:

29.  $y = -2x + 5$

30.  $y = \frac{3}{4}x - 2$

Find the Slope.

31. Find the slope of the line containing points (9, 4) and (5, 2)

32. Find the slope of the line containing points (-2, 3) and (8, -15)

**Word Problems: Set up and solve proportions. If necessary, then round answer to the nearest tenth.**

33. After 2 hours I had finished watching 5 episodes of my favorite show on Netflix. At that rate how long would it take me to watch 15 episodes?

34. The ratio of boy to girl students at a certain school is 17:23. If there are 300 total students at that school how many boys attend that school?

35. Suppose the model of a PS4 has a length of 50 mm and we know the actual length of the PS4 is 275 mm. What is the scale of the model?

36. The blueprint of a skateboard ramp shows the length is 11.4 inches. If the scale on the blueprint is 1 inch = 6 feet, find the length of the actual skateboard ramp using a scale factor.

**Part 2: Geometry Skills**

**Solve for the missing variable in each figure:**

37. What is the simplified expression for the area of the shaded region in the larger of these two rectangles?

38. What is the simplified expression for the area of the shaded region in the larger of these two rectangles?

39. Solve for the variable  $x$ .

40. Solve for the variable  $x$ .

41. Solve for the variable  $x$ .

42. Solve for the variable  $x$ .

43. Your new iPad is 7 inches tall and 6 inches long, what is the diagonal display of the iPad screen?
