Children ages 5 and up, beginners and advancing beginners learn the basics and improve your game! Have fun while developing problem solving and decision making skills. You'll be taught by U.S. certified coach

Alex Braylovskiy

His students have accumulated a number of prestigious titles locally and nation-wide

***No class on Feb 16, Feb 23, Mar 30, Apr 6** **\$110. R.E.D./\$125. Non-R.E.D.**

Calling all Science Kids for 8 new wonderful lessons!

CRAZY CHEMWORKS! Learn the basics of a Science laboratory, how to recognize chemical reactions, discover whether liquids found in your home are acids or bases, make Mad Science slime, beat the clock with split second chemical reactions, probe the properties of light, take an adhesive tour on things that cling, and manipulate matter in all of its three states!

***No class on Feb 22** **\$110.R.E.D./\$125. Non-R.E.D.**

This 8 week clinic is perfect for first time players or other aspiring players. Everyone will improve their game and have fun. Each session combines fundamental skill instruction with organized team competition. Participants will benefit by improving their individual skills such as passing, dribbling, shooting, rebounding, and defense while learning how to work within the framework of a team.

Each session begins with a warm-up of stretching and plyometric exercises followed by a group activity designed to promote leadership and team work. Stations drills are next where small groups of players work with a coach on a specific skill. Stations are both fun and promote skill development. There will be competitions such as passing circle, survivor, knockout, and dribble tag. **TEAM SHIRT** included!

***No class on Feb 20** **\$125.R.E.D./\$145. Non-R.E.D.**
